

Advanced Trauma Life Support (A T L S)

The AMERICAN COLLEGE OF SURGEONS (ACS) COMMITTEE ON TRAUMA developed the current ATLS program in accordance with the College's long-standing dedication to improvement of care for the surgical patient.

The program is designed for physicians and physician extenders who do not treat victims of major trauma regularly and who may not have immediate access to sophisticated emergency care facilities. Physicians treating trauma patients in emergency or surgical departments also benefit from the course training.

The program emphasizes the first hour of initial assessment and primary management of the injured patient, starting at the point in time of injury and continuing through initial assessment, life-saving intervention, re-evaluation, stabilization, and when needed, transfer to a facility in which the patient can receive specialized care, such as a trauma center.

Full Courses

March 2 & 3, 2007
Great Falls

April 20 & 21, 2007
Billings

June 8 & 9, 2007
Missoula

November 2 & 3, 2007
Billings

Refresher Courses

March 3, 2007
Great Falls

April 21, 2007
Billings

June 9, 2007
Missoula

November 3, 2007
Billings

Trauma strikes down its many victims swiftly and indiscriminately. In the first moments after someone has been severely injured, the primary care provider must act with speed, knowledge and skill.

This two-day student course consists of pre- and post-course tests, core content lectures, case presentations, discussions, development of life-saving manipulative skills, practical laboratory experience, and a final performance proficiency evaluation.

Course Content	
Lectures	Skill Stations
Course Overview	
Initial Assessment & Management	Simulated Patient Assessment & Management Scenarios
Airway and Ventilatory Management	Intubation, Needle & Surgical Cricothyroidotomy
Shock	Vascular Access & Monitoring
Thoracic Trauma	X-ray Identification of Thoracic Injuries Chest Trauma Management
Abdominal Trauma	Diagnostic Peritoneal Lavage
Head Trauma	Head & Neck Trauma Assessment & Management
Spine & Spinal Cord Trauma	X-ray identification of spine injuries Immobilization Techniques
Musculoskeletal Trauma	Principles & techniques for Extremity Immobilizations
Injuries Due to Burn & Cold	
Pediatric Trauma	
Trauma in Women	
Stabilization & Transport	
Written & Practical Skills Tests	Triage Scenarios

- Enclose Registration: Registration is only guaranteed upon receipt of registration fee.
(If course is full, you will be contacted about a prompt refund or eligibility for another course.)

\$550.00 for Physician registration.

- \$400.00 for Physician Extender Registration.** A limited number of physician extenders are accepted into each course. Physician extenders are non-physicians; (eg. nurse, nurse practitioner, physician assistant) who are directly involved in the management of the trauma patient. Physician extenders are not eligible for verification from the American College of Surgeons, but will receive a certificate of participation.

- \$125.00—for ATLS Refresher registration.** Up to four physicians will be accepted at each course for an ATLS refresher. Refresher candidates are only eligible for the refresher course 6 months before their expiration date to 6 months past their expiration date. Candidates will attend on Saturday for approximately 4 hours for an update on 7th Edition ATLS materials and written and patient scenario tests.

- \$150.00 for Auditor Registration.** Up to four auditors are accepted into each course. Auditors are nurses, EMT-Paramedics and others who are involved in the management of the trauma patient. Auditors will be able to audit all lectures and skills stations, but will not be able to attend written and patient scenario testing. They are not eligible for verification from the American College of Surgeons, but will receive a certificate of participation.
